

Sixth Form Environmental Society Role and Responsibilities 2022

Bohunt School is a forward- looking learning community. There are opportunities for Sixth Form students to get involved in raising the profile of environmental issues in the Sixth Form and the main school by joining the Environmental Society.

To support and inspire our younger students, Year 12 students will work with with younger students who are members of the eco club on our three key objectives:

1. Recycling
2. Energy efficiency & saving
3. Re-wilding projects on the site.

Please see the roles and responsibilities below:

- Raising the profile of environmental issues
- Presenting across our community including at school meetings
- Plan and deliver events and fundraising activities in support of our environment priorities
- Work as a structured team as well as with eco club and Carla Williams

Person specification

To be successful in this role you will be:

- An enthusiastic promoter of environmental issues
- Positive
- Reliable
- Committed
- Creative
- Free to devote time to the role
- Good at working in a team

If you would like to volunteer for this role, please email a short statement as to why you would like to be involved.
